

Updates to Course Materials

This page lists all updates made to the course website, including handouts, after their initial release. These changes are based on your questions from emails and the [Course Discussion Platform](#) to make things clearer or more helpful. Unless announced on Quercus, updates here (e.g., clarifications, tips) won't affect grading. Check [Quercus](#) for any corrections or changes that might impact your assignments and course project.

Updates

Updates marked in red may affect grading and have corresponding announcements posted on Quercus.

Date	Material	Update Description
September 8, 2025	Presentation Rubric	Revised rubric to reflect the time gap between presentation slide submission (November 17, 2025) and final deliverable (December 7, 2025), specifying that advanced features can be incomplete if accompanied by a simplified demo and feasible completion plan.
